

DOWNTOWN PARKING STRUCTURE COMMUNITY MEETING

Date: 4/16/2018
Time: 6:30 pm
City Council Chambers
701 Laurel St., Menlo Park, CA 94025

The community is invited to share input on potential uses of a downtown parking structure.

Community input is valued and welcome as Menlo Park explores plans for downtown parking solutions.

Potential discussion points

- Stand alone parking or mixed-use development
- Housing possibilities
- Structure size, number of spaces, types of uses
- Comparable structures in nearby cities

Background

In February 2018, the City Council approved their annual work plan with a focus on a potential downtown parking structure as one of six top priorities. This involves determining potential uses, siting, funding and design of a downtown parking structure. City staff is embarking on the evaluation of multiple options for developing a parking structure and/or mixed-use development.

According to a 2010 Downtown Menlo Park Parking Study, 80 percent of parking spaces were in use during peak hours in the downtown area.

- Parking plazas – 1,186 spaces
- On-street parking – 409 spaces
- Total spaces – 1,596 spaces

This community meeting may constitute a Special Meeting of the City Council if a majority of City Councilmembers attend. The purpose of the community meeting is to gather community input. The City Council will not take any action, make any decisions or engage in any deliberations as the City Council at this meeting. This notice is provided in accordance with the Brown Act in the event that a majority of City Councilmembers are in attendance.
