LEED construction tracking summary					
<p>This document shall be used to summarize the construction progress by the contractor prior to each LPP inspection and presented to the LEED inspector for review along with the supplemental LEED construction documentation available at the time of the LPP inspection. Please refer to document LPP#8 LEED Construction Documentation and LPP#11 LEED Inspection Guidelines for additional information regarding the submittal process and requirements for each inspection. Please attach a dated cover letter with an index of the product information provided for each inspection.</p>
