

LOTE4Kids

English, non-English, and bilingual picture books on the web

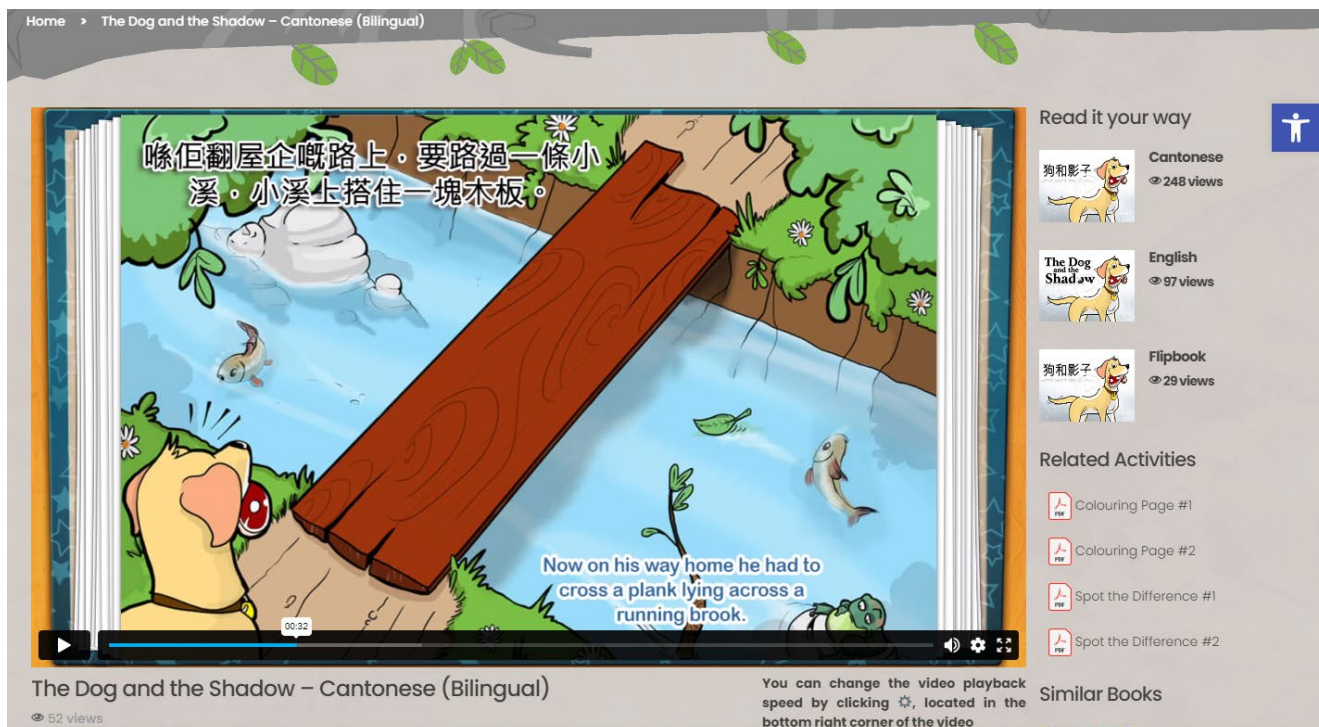

1. Visit lote4kids.com and search for Menlo Park Library in the search bar.
2. Enter your library barcode when prompted (must start with 29044), then tap Sign In.

- Choose a language from the menu, then choose a book and how you would like it read to you. Most books will have English narration and a language other than English, and some have a Bilingual option (the narrator will read each page in both languages!)

- Press play on the video player and the book will play with the narration you chose.

Some books have a Flipbook option – instead of one video that plays the whole book, each page is a separate video that you can replay over and over, then turn the page when you are ready.

Some books also have activities like coloring pages that you can download and print out!
