D4-4	<b>El Camino Real Crossings Improvements Project</b>  The City of Menlo Park's El Camino Real Corridor Study reviewed and recommend potential transportation and safety improvements to El Camino Real, making it safer and more efficient to move along and across El Camino for all modes of travel: pedestrians, bicycles, automobiles, and transit.	On Monday 8/25, the contractor will begin site preparation work (including potholing, demolition, and framing for curb ramps) at Ravenswood and El Camino Real.  Construction work will take place during night time hours (see "Significant Impacts" column) to minimize traffic disturbance and impact to businesses. All work is expected to be substantially completed by the end of October.  Notices to residences and businesses have been placed on-site and distributed. Weekly updates will be provided as part of this document as well.	Please anticipate traffic impacts, including partial lane closures, during construction activity (typically 9PM – 6AM) unless otherwise noted.  The contractor shall adhere to City and Caltrans - approved traffic control plans (including implementation of temporary signs, cones, message boards, and flaggers as required) at all times during operations.

2	<p><b>Automated Meter Infrastructure (AMI) Project:</b></p> <p>The AMI project will upgrade all water meters for Menlo Park Municipal Water (MPMW) customers. These new meters will record and transmit accurate, hourly data in near real-time.</p> <p>For more information and an installation schedule, visit</p>	<p>Meter upgrades are continuing in the Willows area. A door hanger will be placed on the customer's door after work has been completed.</p>	<p>No traffic impact at this time.</p> <p>Meter replacement will require temporary water service interruption (no more than one hour).</p> <p>Due to the age of the water system, leaks may occur during meter replacement which may cause prolonged water outages. The water department will contact affected customers directly.</p>
